PSE Initiatives

Product and Policy Developments in the Pipeline

Securities Borrowing and Lending

- On February 3, 2026, PSE released a consultation paper on the proposed amendments to the PSE Rules on Securities Borrowing and Lending (SBL) and the rationalization of SBL reports, open for comments until February 18, 2026.
- Incorporate in the PSE SBL Rules a framework to allow an SEC-registered onshore Lending Agent to facilitate the Philippine leg of SBL transactions between foreign lenders and foreign borrowers involving PSE-listed securities, while carving out collateral management from the functions and responsibilities of the onshore Lending Agent.

Derivatives

- PSE is developing the Philippine Derivatives market, starting with Index Futures which will be based on the PSEi.
- In December 2025, PSE and its subsidiaries held learning sessions with Taiwan bourses, including the Taiwan Futures Exchange (TAIFEX). The session covered the full derivatives contract lifecycle, offering insights into global best practices that will guide PSE's product development.

ETF Rule Amendments

- PSE is finalizing amendments to its ETF rules to encourage issuance of more ETF products (e.g., allow trust-type and actively managed ETFs; enable funds to track foreign securities and alternative assets like cryptocurrencies, gold, and commodities, etc).

GPDRs

- Global Philippine Depositary Receipts (GPDRs) are peso-denominated instruments that represent economic, but not voting, interest in foreign-listed securities, with an option to convert to the underlying shares.
- PSE is currently engaging with several brokers as potential GPDR providers. In addition, one broker is planning an information session on market making for new products, including GPDRs and ETFs.

Structured Warrants

- A structured warrant is a contract under which a person has an actual, contingent or prospective right to buy/sell a specified quantity of underlying assets at a set price on or before a future date; or receive a cash settlement based on the underlying instrument's price fluctuations, calculated per contract terms.
- In January, PSE gathered feedback from potential issuers regarding SEC's proposed regulations on structured warrants. The Exchange is coordinating with a broker to host an info-learning session with the Commission in early March.

Market Making

- PSE is studying the introduction of market makers in the local market to boost liquidity.

Partnerships with Other Exchanges

PSE and TWSE MOU

August 27, 2024

PSE and TWSE (Taiwan Stock Exchange) entered into a Memorandum of Understanding (MOU) to collaborate on XBRL and Securities Borrowing and Lending (SBL); and derivatives through the Taiwan Futures Exchange.

Depository Receipt (DR) Collaboration with ASEAN

November 21, 2024

Following the success of the DR-linkage between Stock Exchange of Thailand and Singapore Exchange, the ASEAN Exchanges aim to jointly develop market and regulatory frameworks for issuing and trading of DRs, information sharing, engagement with market regulators and participants, and profiling of listed companies.

PSE and TPEx MOU

June 10, 2025

PSE and Taipei Exchange signed an MOU to collaborate on key areas such as market making, SME market incubation, ESG practices, and development of indices, ETFs, and bond and equity derivatives.

From **December 15-18, 2025**, representatives from PSE, PDS, and SEC engaged in learning sessions with TAIFEX, TPEX, and TWSE focused on derivatives, trading, clearing and settlement, and market surveillance.

Initiatives to Increase Listings

Reduced MPO Requirement

- ❑ A tiered minimum public ownership requirement based on the indicative market capitalization.

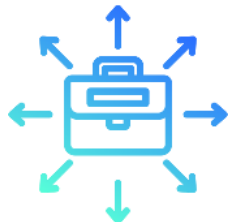

Revisiting the Sponsor Model Listing Framework

- ❑ Easing of the requirements for potential sponsors including, but not limited to, the removal of the insurance requirement, shortening of the track record requirement, and the continuing sponsorship obligation.

Easing of Requirements for Preferred Shares Only Listing

- ❑ Lowering of the minimum offer size from Php1 billion to Php100 million.
- ❑ Disclosure requirements will be streamlined and focused on information potentially affecting issuer's capacity to pay dividends.

Initiatives to Increase Listings

Expanding REIT Coverage

Memorandum Circular No. 1, Series of 2026—issued January 8 and effective January 25—expands eligible income-generating real estate to include real property held indirectly by the REIT through an unlisted special purpose vehicle constituted to primarily hold/own real estate and at least 2/3 of the outstanding and voting capital of which is owned by the REIT, including and incorporated joint ventures.

The revised rules also define regular stream of income as recurring and predictable cash inflows from income generating real estate which may include toll roads, railways, airports, ICT infrastructure, energy infrastructure assets, and data centers, among others. The reinvestment period was also extended to 2 years and reinvestment may now be in the form of investment in equity, extension of loans or purchase of debt instruments or repayment of loans or debt instruments in relation to any real estate or infrastructure project in the Philippines. PSE will update its listing rules in accordance with the revised regulations.

Low Priority Audit for Small Firms

Consider implementing low-priority audits for SMEs and family-run companies to reduce the compliance burden related to tax and accounting requirements. This measure would provide greater flexibility and ease for businesses preparing for IPOs, thereby allowing them to focus efforts more on operational readiness and investor engagement.

Listing of GOCCs

The SEC is advancing plans to bring government-owned and -controlled corporations (GOCCs) to the Philippine stock market. With approval from the Department of Finance, the SEC has begun identifying GOCCs that are viable for public listing.

Initiatives for Potential Issuers

PSE currently has **22 companies** (from 82 companies) in the roster of its LEAP program. **Six (6)** of them are deemed ready to conduct their IPOs within the next year.

HausTalk, Inc.

C-Suite Conversations

On October 20, 2025, PSE hosted "Executive Insights: A CEO Dialogue on Going Public," gathering C-suite executives from **17 private companies** enrolled in the LEAP program. The event aimed to build confidence among LEAP participants through direct engagement with a listed company champion.

Other Initiatives to Attract IPOs

- Road to IPO
- Corporate Connect
- LEAP Insights

These initiatives are undertaken in partnership with the SEC, MOBILIST, S&P Global, and a growing community of IPO advisors.

Increasing the Reach of Listed Issuers

IR Workshops

PSE hosts IR workshops to help PLCs strengthen transparency and improve communication with investors and media. These sessions provide practical strategies on integrated IR practices, corporate governance, and stakeholder engagement. Since 2022, the PSE has hosted **five** IR workshops.

Invest PH

March 19-21, 2025

***2026 Run: March 17-19**

InvestPH highlighted the Philippines as a prime investment destination through informative sessions led by key government officials and top corporate executives.

The event attracted **322 attendees**, including 104 listed companies, 112 local investors, 37 foreign investors, and other market participants.

Partnership with **Bloomberg** September 4, 2025

PSE formalized its partnership with Bloomberg to promote Philippine capital markets to the global investor community. The two organizations will collaborate on events targeting international investors through virtual roadshows and C-suite roundtables, while also exploring enhanced training opportunities for Philippine-based investor relations professionals.

PSE STAR Investor Day

Strengthening Access and Reach

A platform primarily for non-index listed companies to communicate their financial results as well as their plans and prospects to analysts and investors.

The latest edition featured the 9M 2025 earnings reports of 12 PLCs, held on November 13-14, 2025.

Since 2022, there have been a total of **11 PSE STAR runs** with **73 participating listed companies**.

Reduction of Friction Cost

Capital Markets Efficiency Promotion Act (Republic Act No. 12214)

CMEPA was officially signed into law as Republic Act No. 12214 on May 29, 2025 and took effect on July 1, 2025.

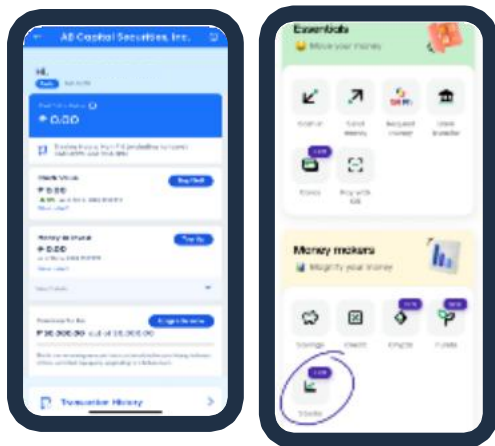

Key provisions impacting the capital markets include: 1) reducing the stock transaction tax from 0.6% to 0.1%; 2) lowering the documentary DST on original issuance from 1% to 0.75%; 3) removing the DST on UITFs; 4) broadening the definition of 'securities' to cover a wider range of financial instruments beyond stocks; and 5) additional 50% deduction of employer's contribution to employees' PERA accounts.

Removal of the Minimum Commission Charged by Brokers (MC No. 7 series of 2024)

SEC released Memorandum Circular No. 07, series of 2024, removing the minimum commission charged by brokers.

Increasing Retail Participation through Digital Platforms

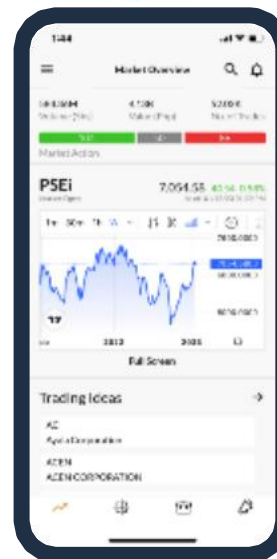

Stock investing enabled via fintech platforms

PSE's initiative to enable stock trading on e-wallet apps such as GCash and Maya significantly increased retail participation. Since its launch in August 2023 **GStocks PH** has attracted **over 1.7 million registered users**. Meanwhile, **Maya Stocks** has **over 15,000 registered users**.

PSE Equip

A PSE Data Analytics platform that democratizes access to market data providing retail investors with comprehensive and reliable information on the Philippine stock market. As of March 6, 2026 there are **10,763 registered users**.

PSE launched a Premium Subscription in December 2024 which features real-time data on all securities, unlimited access to stock reports with analysis and consensus estimates, full market depth, unlimited filters for stock screeners, among others.

PSE EASy

PSE EASy is an online application that enables local small investors (LSI) to register and subscribe to the LSI tranche of an IPO and FOO. Currently, PSE EASy has over **84,000 registered LSIs**.

PSE Viber Channel

The PSE Viber Channel was created to make market and disclosure updates more accessible. As of March 6, 2026, the channel has **1,727 subscribers**.

Initiatives to Increase and Educate the Investor Base

PSE Academy provides a comprehensive, interactive, and practical web-based investor education platform for market participants, equity investors, and the public in general.

Stock Trading Game

An educational trading simulator that builds technical skills and emotional discipline essential for successful trading.

By using real market data, beginners can explore market trends, develop strategies, practice trading, and learn risk management—all without putting their actual money at risk.

PSE and the Commission on Filipinos Overseas plan to launch an Inter-School Stock Trading Tournament. This three-month competition will engage Junior and Senior High School representatives from Philippine Schools Overseas. Participants will simulate stock trading using virtual currency and real market data.

TikTok

Objective:

To use the latest social media platform to educate, engage, and empower the young generation in stock market investing.

43 Stock Market Seminars and Visits 2025

PSE-offered service for onsite seminars and Exchange visits open to schools and corporates.

Market Education Partnerships

Department of Migrant Workers (DMW)

On February 29, 2024, PSE and DMW signed an MOU to promote financial literacy among the 2.5 million Overseas Filipino Workers (OFWs) and their families.

PSE has conducted a webinar for OFWs and their families as well as participated in three migrant fairs held in Manila, Tacloban, and Baguio.

Commission on Filipino Overseas (CFO)

On June 17, 2025, PSE and CFO signed an MOU to jointly undertake programs aimed at empowering overseas Filipinos to become active participants in the Philippine capital market.

On August 4, 2025, PSE conducted an onsite seminar for CFO employees in collaboration with COL Financial. The session covered stock market basics, investment opportunities, platform features, account opening procedures, and advanced investing concepts, and the relevance of these tools for Overseas Filipinos.

PSE held a three-part webinar series for Philippine Schools Overseas (PSO). The first webinar on October 15, 2025, introduced 75 participants to the stock trading game and tournament, while the November 13 session demonstrated the Stock Trading Platform and PSE Academy website, and the final session on December 9 covered PSE Equip.

University Partnerships

Certified Securities Specialist Course held in partnership with the Ateneo Graduate School of Business and the De La Salle College of Sainte Benilde, is a 124-hour continuing education program designed for aspiring stockbrokers, finance and capital market professionals, and individuals interested in managing their own portfolios. Since 2007, PSE has held 45 runs with over 900 course graduates.

On July 15, 2025, PSE signed an MOU with San Beda University's Accountancy, Economics & Public Policy, and Financial Management departments to deliver seminars and workshops that strengthen students' financial and stock market literacy.

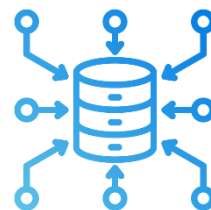

Nasdaq Eqlipse Trading

On May 22, 2025, the PSE and Nasdaq announced their enhanced technological partnership, whereby the PSE will upgrade its trading infrastructure to Nasdaq's most advanced platform, Nasdaq Eqlipse Trading.

This upgrade supports PSE's strategic objectives by enhancing market infrastructure through standardized lot sizes, enabling new financial instruments such as derivatives, and integrating advanced trading technology.

Upcoming System Upgrades

New Central Depository System
for PDTC

New Disclosure Platform using
XBRL Format for PSE

New Surveillance System
for CMIC

PDS Initiatives

PDS Group

Philippine Dealing System Holdings Corp. & Subsidiaries

The acquisition of PDS group transformed the Company's financials, particularly its revenue mix, by bringing in new revenue streams and increasing its trading-related revenues.

PSE has been actively conducting high-level integration meetings to strategically plan synergies and cost efficiencies that can be derived from the acquisition.

As of March 5, 2026, **PSE beneficially owns 94.55% of PDS.**

Initiatives

Technology

- Integration of depository system and clearing and settlement systems
 - Surveillance system
 - Mobile app for listed ISIN information
- New Depository/Registry System: Implementation activities
 - Strengthen cybersecurity

Risk Management

- Aligning of risk management and business continuity processes of both entities
- Improved information sharing between clearing and depository

Investor Protection

- Expansion of NoCD coverage to include all stock securities which can enable investors to receive reports directly from the securities depository
- Investor Reports accessed by mobile

New Products

- Bond indices
- Bond products (ETFs, index, USD-denominated, amortizing, and floating-rate corporates), multi-asset ETFs, and derivatives (interest rate futures, bond and currency derivatives)
 - Expand forward bond program to include QIBs
- Enhance RMB Transfers & RMB/PHP PVP with Bank of China

Electronic Securities Issue Portal (e-SIP) Enhancements

- Phase 2: Pre & Post-Trade Facilities and Listing Utilities / Electronic Disclosure
- Phase 3: Streamlining secondary market activities
- Extended e-SIP Services: e-Consent Solicitation and e-Voting

QIB: Qualified Institutional Buyer

e-SIP: Allows issuers and underwriters to submit listing and registry documents for bond listings
