II. Document Description.....	4

I. Background

PSE Exchange Rate Static Data Specification contains static data fields that were identified as vital for subscriber connecting to the PSE Market Data. The rows are pipe delimited to separate each fields and corresponds to specifications in the table 1.

II. Document Description

Table 1. Exchange Rate Static Data file.

Data Requirement	Data Type	Format/Valid Values	Description
currency	X,3		Indicator of the currency used
date	X,8	MMDDYYYY	Date of the exchange rate
exchangerate	N (5,3)		Actual Exchange rate for the day.

Appendix A

1. File Naming Convention

`exchangerate_YYYYMMDD_HHMMSS.txt`

where YYYYMMDD_HHMMSS is the date and time of generation

2. Sample File Content

Note: The first line always contains the column names.

1. File is pipe (“|”) delimited.

2. Expected output:

```
currency|date|exchangerate
USD|06232026|61.351
```
